

Testimonials

CJIS Portal: Prior to our officers being able to directly access CJIS, dispatch was frequently the avenue most used to obtain data. As you know, information is most often needed when the dispatch center is at its busiest therefore limiting what you may ask for. With the officer having the ability to directly access CJIS, our data collection for investigations has improved. Over the past year, our agency has utilized Net-motion as a secure link to the state network, which in turn has given us the use of CJIS in the field units. Officers have commented on how they have used the CJIS database to retrieve people's descriptions and photos to identify subjects who are providing false information. Having this crucial information at ones fingertips has led to improved success in our investigations and led to greater officer safety. Thank you for all that you and your fellow staff do with CJIS.

Lt. Christopher Miller
Mandan Police Department

CJIS Portal: CJIS helps me almost daily by allowing me to directly access state D/L files, arrest records and motor vehicle records from my desk without having to involve a third party or make written requests. It cuts down markedly on time invested in suspect identification and intelligence gathering. I use it almost daily in criminal investigations, background and financial inquiries, warrant services and criminal intelligence gathering .

Wayne A Schull, Detective
Grand Forks Police Department
